

Heard Museum Guild American Indian Student Art Cards

The note card project is an integral part of the Student Art Show & Sale, which assists emerging American Indian artists in grades 7 through 12 by offering them the opportunity to show and sell their artwork in a museum setting. Each year new images are selected from Student Art Show entries. Note card monies in the form of Grants provide teachers purchasing power to buy supplies for this project. In turn your note card purchase will fund these grants and scholarships. For ordering information contact:
